- Commercial use by Professionals and Stonemasons in factory / work-shops..
- Flooring or Slab works.
- Ideal for renovating or honing table, worktops, steps, pool surrounds, shower trays etc.
- Creates acid resistant surface.

### PROPERTIES:

Product works on the surface of the stone just like peeling the skin of an orange. Enhancing colour of stone and highlight any veins within the stone giving that real authentic worn aged patina finish.

### APPLICATION:

Before using product make sure that any previous surface wax / polished or impregnating treatments are removed to ensure that product works effectively otherwise desired results will not be achieved.

### ALWAYS Test small area:

Determine your desired result by testing a discreet area or sample. Apply manually to horizontal placed slabs or surface and ensure stone surface completely covered with product. Allow product to work for approx.2-3 minutes until stop reacting to the surface of the stone. Having achieved the desired finish important to rinse thoroughly with clean water to remove any excess residues.

We recommend floor surfaces in particular be thoroughly rinsed using PROCLEAN 04 detergent diluted 1 part product to 10parts water and wet vacuum all residues accordingly.

### Important Safety Note

Use appropriate personal protection equipment, gloves, safety glasses and clothing as appropriate. Before proceeding to avoid damages from accidental spills or vapours, remove or protect all objects with appropriate protection and tape .Protect as necessary all surrounding areas ,glass, metal, or aluminium, plants and allow adequate ventilation. Keep product well closed and out of reach of children. Additional information available on Material Safety Data Sheet.
