Product Ready to Use DO NOT DILUTE

Old terra cotta waxed surface

Natural stone surfaces

Porcelain, ceramics, quarry tiles

Coverage

4 - 6 m² *

8 - 15 m² *

15 -20 m² *

***Coverage:** The information is purely a guide line only and may differ according to the porosity and textured finish of the stone OR ceramics and site conditions.

IMPORTANT NOTE: We recommend solvent sensitive surfaces such as rubber, plastics, plants and newly painted and varnished surfaces are protected as necessary.

ALWAYS Test small area: - Determine your desired result by testing a discreet area.

APPLICATION

Sweep, wipe clean or vacuum surface first to remove general soil. Pour concentrated product onto stone or tile surface. Allow product to work on soiled area for 3 to 5 minutes. Agitate solution with brush or nylon pad depending on the surface texture. Do not allow to dry.

Cleaning can be carried out manually or by using a scrubbing machine .In each case using a brush head or nylon scouring type pad, subject to the surface texture finish and size of floor area involved:Remove dirty solution by wiping with cloth or using a wet vacuum unit and thoroughly rinsing with clean water and removing any excess residues.In very stubborn cases repeat above process allowing longer working time.

Final Clean and Rinse: We recommend final clean rinse using **PROCLEAN 04** detergent diluted 1:20.

Packaging:-

1 litre bottles childproof tamper evident cap (10 x 1 litre)

5 litre container (2x5 litre) childproof tamper evident cap

Warranty:-The technical advice whether verbal or in writing or by way of trials are given in good faith but without warranty. The application use or processing of the products are beyond our control and should be tested for their suitability and therefore your own responsibility.
