STONE CARE EUROPE

PLATINUM PROFESSIONAL Originally developed by the continuous request from a select group of clients and stone quarries to provide them with treatments that would achieve the highest standards of performance to protect those unusual porous natural stones, granites (Pietra Serena, Cashmere White, Basalt, Sandstones etc.).

Platinum's new Triple Action technology now being used in more than 30 countries.

PLATINUM ACQUA - Water Based Anti Stain treatment / Neutral finish. Anti-Stain treatment suitable for polished, honed natural and artificial engineered stone and terracotta. Coverage per liter. Subject to surface texture and porosity of stone. High porosity 6 - 8 m². Medium 10 - 15 m². Low 25 - 40 m²

PLATINUM SOLVENT- Solvent Based Anti Stain treatment / Neutral Finish. Anti-Stain Humidity treatment suitable for polished, honed natural and artificial engineered stone and terracotta. Coverage per liter. Subject to surface texture and porosity of stone. High porosity 6 - 10 m². Medium 15 - 25 m². Low 25 - 50 m²

PLATINUM WET- Solvent Based Anti Stain treatment Colour Enhancing finish. Anti-Stain Humidity treatment suitable for honed natural and artificial engineered stone and terracotta. Enhances appearance texture and colour of natural materials. Coverage per liter. Subject to surface texture and porosity of stone. High porosity 6 - 10 m². Medium 10 - 25 m². Low 25 - 50 m²

PLATINUM CLEAN & FINISH - Water Based protective detergent. Unique periodic cleaning detergent which cleans and protects all in one action. Contains active maintenance anti stain treatment designed to support and enhance existing protection in stone. No rinsing required. Ready to use product Spray bottle 750 ml. Coverage per liter - Subject to surface texture and porosity of stone. -60 m² - 100 m² per liter.

PLATINUM VELOCE FAST- Fast Drying Application Treatment / Neutral Finish. Unique Anti-Stain Humidity treatment fast drying with immediate protection. Ideal for online production and time limited installation projects. Suitable for polished, honed natural and artificial engineered stones. Coverage per liter Subject to surface texture and porosity of stone. High porosity 6 - 10 m². Medium 15 - 25 m². Low 25 - 50 m²

PLATINUM SURFACE - Water Based easy care Anti Stain surface maintenance treatment.

PLATINUM ZIP - Solvent Based High Performance protective colour enhancer treatment for natural polished, honed granite, marble and natural stones. Uniforms the surface appearance and enhances existing gloss. Coverage per lit -30 to 60 m²

PLATINUM STAIN OUT- Specially developed oxidizing agents and additives - Formulated for removal of yellowish brown stains caused by rising damp and humidity, particularly in white and crystallised type marbles. Removes organic stains coffee, tea, saw dust, leaves, nicotine, urine. Coverage per lit 10 - 20 m²

INSTITUTE GIORDANO FOOD TEST CERTIFICATE.

Solvent and Water based treatments approved for food related areas.

Platinum Specifications

- Suitable for all types of natural stones granite, marble, limestone, quartz engineered resin stones and ceramics.
- Solvent & Water Based Treatment for online manufacturing.
- Advanced Triple Action Anti Stain Impregnating Protection
- Natural Finish • Easy Application • Odour less • Anti-Graffiti
- Non Toxic Environmentally Friendly • UV Resistant (sunlight)
- Breathable micro porosity properties
- Prevention Efflorescence • Anti Humidity Moisture
