

PROCLEAN 05

ACID DETERGENT FOR TERRACOTTA SURFACES

DESCRIPTION

Acid detergent for cleaning terracotta surfaces laid inside and outside. PROCLEAN 05 acts effectively on residues of cement, sealant and other material used for laying, it totally eliminates the efflorescence of saltpeter, without damaging the artifact. The product is also recommended for cleaning the hand guard, it does not leave residues.

PROCLEAN 05 can be used for any type of terracotta surface: rustic, Tuscan, Lombard, both sandblasted and polished; it is recommended for raw terracotta thanks to its ability to dissolve the residues present in the porosities.

PROCLEAN 05 does not produce unpleasant odors or dangerous fumes, soluble in water, it is very effective for the removal of rising salts and limestone from old laying surfaces.

YIELD

The yield varies from 5 to 30 m² of surface with 1 kg of product.

APPLICATION

PROCLEAN 05 is diluted in water as needed up to one part of the product with twenty parts of water. The product can be used with manual equipment or with a single disc machine equipped with bristles in Tynex, Nylon.

We recommend applying the product on surfaces previously moistened and with water.

Dilution

- Light cleaning: 1 part of the product with 5 parts of water (1:5)
- Concentrated cleaning: 1 part of the product with 1 part of water (1:1)
- For a stronger and more localized action, apply the pure product directly on the surface to be restored.

ALWAYS CARRY OUT TESTS BEFORE USE

Anyone, before use, needs to know the characteristics of our products by reading the label affixed to each package, the technical data sheet and the safety data sheet compliant with Regulation (EC) 1272/2008 (CLP) (and subsequent amendments and adjustments) and of Regulation (EU) 2015/830, or eventually by contacting us directly. However, we recommend to strictly follow the instructions given or received.

We also recommend to carry out a preventive sampling to detect any unexpected results with respect to the method of application or the quality of the result. Keep the package well sealed and out of the reach of children. Aerate the working environment well during and also after the application of the product.

Do not eat or drink when using this product.

RECOMMENDATIONS

Avoid contact with shiny marble and metal elements present in the work area. The product cannot stand freezing, store it in well-closed and well-protected places, at a temperature not lower than 10 °C. Always protect yourself with mask, gloves and protective clothing.

NOTE

Our indications and technical advice, both given by voice or in writing, refer to our personal best knowledge and do not include any guarantee against third parties.

We kindly invite you to adapt our products to your needs and working conditions: methods of use and processing techniques are exclusively under the responsibility of the buyer.

As far as we are concerned, we guarantee constant quality in our supplies within our general conditions of sale. Should you verify our liability for any type of damage, the liability is limited solely and exclusively to the value of the goods supplied by us and used by you.
